

FREQUENT LANE DOCUMENTATION – CARRIERS

This document is for instructional purposes

➤ LOAD NOTIFICATIONS

Ultra often has loads available in the same lanes. We have set up a system where carriers can be alerted via email when a new load is available in a lane the carrier is interested in. In order to take advantage of this feature, you must be a registered user of GoUltra.com. You can view our frequent lanes by navigating your web browser to <http://www.goultra.com>. Once there, log in by entering your username (email address) and password into the login form (See Fig. 1).

Login Email:
Password: [Forget Password?](#)

Figure 1 – Login Form

After logging in, click on the “loads” link in the navigation menu (See Fig. 2) and then click on the “frequent lanes” link in the sub-navigation menu (See Fig. 3).

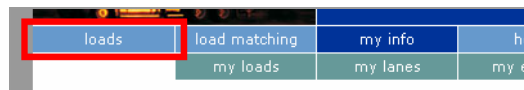

Figure 2 – “Loads” link

Figure 3 – “Frequent Lanes” link

You will be taken to a screen that lists the frequent lanes. Information such as the lane’s origin, destination, equipment, and how often loads fall upon it are displayed. To register your interest in a particular lane, click on the “Add” link next to the lane (See Fig. 4). If you aren’t interested anymore, click on the “Remove” link next to that lane.

(Note: ? indicates the date is not confirmed.)

	Origin City	State	Destination City	State	Frequency	Equipment	Alerts
AT	EVERGREEN	AL	SPRING VALLEY	IL		53V	Add
AT	MONTGOMERY	AL	SEYMOUR	IN			Add
AT	HOT SPRINGS	AR	HURRICANE	UT		53V	Add
AT	LOWELL	AR	CHANDLER	AZ		53R	Add

Figure 4 – “Add” link

That’s all there is to it! Once your alert is set, you will receive automatic notification as soon as loads come into our system. The notification email contains information about the loads you requested. An example of an alert email is shown below:
